TPS[™]
Thermal Product Solutions

Wisconsin Oven is a brand of Thermal Product Solutions, LLC

Challenge:

Uniformly drying non-uniform molded fiber pulp shapes and complex geometries is difficult; especially for short run product manufacturers.

Rely upon our process drying experiences and design build capabilities to support your operation by helping you consistently reach your daily production goals while lowering the overall cost of goods sold.

Our approach is to provide drying solutions that allow the operators to maintain control and visibility of the product, which in turn, maximizes the drying rate and the overall effectiveness of the process dryer.

Options:

- E-Pack™ Upgrade
- Guaranteed Temperature Uniformity & Certification
- Batch Heating Process Timers
- Additional Access Ports & Doors
- Recipe Driven PLC Controls
- Data Acquisition and Recording
- Installation, Start-Up, Commissioning & Operator Training Services
- Preventative Maintenance Programs
